PATAL ACCIDENT TO LABORERS-TWO MEN Kn. 1. ED .- Yesterday morning, about 10 o'clock, Michael Deggan and John Doberty, both laborers, who were ergaged by Bernard McCabe, residing at No. 391 Third avenue, digging a cellar on the corner of Twenty-first street and Fourth avenue, were almost instantly killed, by being buried under an embankmest, about nine feet high, which caved in upon them. The men were extricated with all possible dispatch, but when taken out life was extinct, and their remains were much bruised and lacerated. Coroner Gamble held an inquest on the bodies of the unfortunate men, when it appeared in evidence that all the laborers in the employ of Mr. McCabe had been cau-tioned about working under the embankment, but, paying little or no attention to what was said to them, kept on at their work, and thereby lost their lives. The Jury, after hearing all the evidence, rendered a verdict that the deceased parties came to their deaths by injuries received by having an embankment fall upon them, on the corner of Twenty first street and Fouth avenue, while engaged in digging a cellar, July 6, 1857. Doherty was 45 years of age, and a native of Ireland. He resided with his son, in Thirty-third street. Duggan lived on the corner of Forty-second street and Lexington avenue. He was a native of Ire land, and 28 years old. Both of the deceased parties

A MAN STABBED BY HIS MISTRESS .- On Sunday night a young man named Henry Wadsworth, formerly ergaged as a barkeeper in a saloon on Broadway, was stabbed by Nora Taylor, a young woman with whom he had lived three years. It appears that Wadsworth had some difficulty with his mistress, when she became greatly enraged, and drawing a dirk, threatened his life. Soon after this trouble, which occurred during the evening, he left the house, not feeling safe, and repaired to the Eighth Ward Police Station at Merritt's Hall, Spring street, whither she followed him, reiterating her threats against his life. Just as he reached the Station-House stoop and was about entering, the woman ran up and drew a dirk, with which she stabbed him in the left breast, inflicting rather a dangerous wound. Had the blade struck a few inches lower, Wadsworth would no doubt have been instantly killed. The cry of the young man almost instantly brought several officers to the spot, and Officer Roberts, in trying to take the knife from Nora, received a severe cut on the hand. The weapon was finally taken from her, and she was locked up for the night at the Station-House. Yesterday morning Justice Davison, before whom the prisoner was taken, committed her to the Jefferson Market Prison in default of \$1,000 bail. It is thought that she designed killing Wadsworth, and then committing suicide.

FATAL STABBING APPRAY-ARREST OF THE PER-PETRATOR —William Keeler, a bright and intelligent lad, 16 years of age, died in the New-York Hospital, on Sunday night, from the effects of a stab. It appears that the deceased lived with his mother, at No. 178 Hester street, and was by her sent abroad Friday last, when a younger boy named Burke set a dog upon him. Young Keeler made a kick at the animal, when Burke replied, "You son of a b-h, what are you doing?" and at the same time, as charged, drew a knife and plunged it into the left side and abdomen of Keeler, inflicting very dangerous wounds, which have resulted fatally as stated above.

By permission of Coroner Perry, the remains of the deceased were conveyed to the residence of his dis-tressed mother, where an inquest will be held to-day. Barke, the young assassin, was arrested by ex-Capt.
Dowling, of the Sixth Ward Police, and locked up to await the result of the Coroner's inquisition. The deceased, who was employed in the law office of Peter B. Sweepy, esq., Chambers street, was a nephew of ex-Capt. Dowling.

TO THE BENEVOLENT.-The following certificate from Gov. Pinney, Secretary of the New-York State Colonization Society, has been handed us for publication by Richard Myers, the colored man in whose be-half it was given. We have seen other certificates which show beyond a doubt that Myers is what he claims to be, and that his story is a true one:

claims to be, and that his story is a true one:

"This is to certify that Richard Myers, a colored man about 29 years of age, has with him and has submitted to my examination undoubted testimonials of good character and worth. By thirteen years of service he was enabled to pay for his own liberty. His wife is still in bondage, and by the encouragement of some who knew him and gave him letters of high commendation he has resolved to appeal to the good and liberal for aid to secure her freedom.

"I have no doubt that he will faithfully apply the money he may receive for the above purpose.

Mr. James Stokes of the firm of Phelps, Dodge & Co., No. 19 Cliff street, will receive donations for Richard. Any donations sent to me will be reserved for the same purpose.

While there a general fight ensued among those present, when McIntyre drew a knife and struck McCue in the side, the blade glaneing off his watch, and doing no other injury than slightly wounding him and cutting his coat. In the discharge of his duty he had occasion to cross over toward Greenpoint, via Houston-street Ferry. The rule on the ferry, after midnight, is to send boats every half hour. As one had just come in, he would have been obliged to wait under ordinary circumstances. The ferry-master, learning the nature of his errand, promptly dispatched his boat, with instructions for it to return as soon as the officer had discharged his duty. It is pleasant to record such acts of courtesy, as indicative of the regard of the people for our citizen seldiers.

Hugh Riley, a boy 16 years old, pleaded guilty to grand larceny, in stealing property from a Mr. Andrews to the amount of \$110, and was sentenced to the House of Refuge.

John Stephal was then placed on trial, under an indictment for felonious assant in ab battery, with intent to kill, committed on the 20th of May last, upon Margaret Sennefeld, No. 53 Houston street. The indictment charged that the defendent committed the alleged assault with a knife in his hand, by which he indicted a wound on the temple of the compalanat. The testimony of the complainant supported the whole charge in the indictent, proving the lattery, in addition to the employment of the knife, to have been a barbarous one. But her testimony, with one other witness partially confirming her story, comprised the whole evidence for the procention. On the contrary, the defense produced two witnesses which very much emseculated, and directly contradicted the evidence of the complainant in important particulars. Their evidence want to show that a son of the procentrix had used aggravating language was the initiating cause of the afray. There was no question that some kind of an assault was perpetrated. But the question was whether there was any intent to kill, or whether there was any knife, in fact, seed by the accused. His principal witness swore positively she saw the whole fracas, and that the defendant had no knife in his hand; that the wound inflicted on the temple of Mrs. Senneferd was caused by a piece of a broom-handle in the fray non the wif

MONDAY, July 6-P. M. The week opens with great brightness on the Stock market—the buoyancy which we noticed as happening on Friday afternoon has increased to-day, and the market has assumed a strong tone. Reading has adwanced 22; Erie 1; La Crosse 5 per cent; Michigan Southern 1 per cent; Cleveland and Toledo 41 per cent; Milwaukee and Mississippi 21; New-York Central 21; Michigan Southern, preferred Stock, 6 per cent: Cumberland 1; Chicago and Rock Island 21; Michigan Central 13, and Galena and Chicago 31 per cent. California State 7s, 1875, declined 1 per cent The transactions were large and there was a heavy demand for cash Stock. The announcement of the large increase of specie in Bank gave a further impetus to

the market at the Second Board.

The Foreign Exchange market is dull to-day. Some of the leading houses ask 109; 2109; for Sterling bills, but without obtaining it; and some first-class bills have been sold at 109; which appears to be the market rate. France are quoted at 5.15 # 5.17 !.

The Persia will take about \$500,000 in specie on

Wednesday.

Freights are steady, with more doing. To Liverpool, the engagements are 8,000 bush. Grain at 3d. in bags; 150 tierces Beef on private terms; 40 tuns Tallow at 5s.; 1,200 bbls. Rosin at 44d.; Cotton at 3s. # bale. To London, 2,000 bbls. Turpentine at 1s. 6d. @1s. 9d.; 600 do. Spirits Turpentine at 4s. @4s. 6d.; 500 do. Flour at 1s. 6d.: 20 tierces Beef at 3s.; 20 hhds. Tobacco at 15s. To Glasgow, 480 bbls. Rosm at 2s. We hear of several shipments of Corn, but the rates have not been made public. To Bremen, 400 bbls. Shoe Pegs at 1s. 6d.; 300 do. Rosin at 1s. 9d. A vessel from Trois Pistols to London, with Deals at 85s. A vessel of 1,000 tuns was chartered to load Deal, from Bic to London, at 85s.

The business of the Sub-Tressury was: Receipts,

\$416,933 08; Payments, \$833,708 96; Balance, \$9,-

The money market is well supplied, and all approach to stringency has disappeared on satisfactory securities. The Treasury paid out to-day \$833,700 against \$416,933 of receipts, reducing its balance to \$9,900,283 82.

This decrease is in consequence of the large increase in the paid up bank capital during the week. The returns show an amount of \$62,959,135 against \$60,361,000 on the previous Monday, which is an increase of \$2,598,135; but two banks, namely, the Metropolitan and the Bank of New-York, have not made returns, and these have at least received another million of dollars, making a total increase of \$3,700,000 in the week. With all this increase of capital and an increase of \$1,936,255 in specie, the banks have not increased their loans. which shows a great increase of strength.

to a large drain of specie on the banks, as follows: "There has been since our review of last Saturday morning, a considerable drain of specie, chiefly for the West, in consequence of which the banks have been compelled still further to decrease their line of dis-

coupts, thereby materially augmering the demand for morey outdoors, and causing the market to exhibit a rather stringent character. Under these circumstances, capitalists have been enabled to obtain higher rates than before, and we have now to quote strictly first-class short and long paper at 94 & 10 per cent, the transactions being chiefly at the highest figures; fair or second-class paper 12 & 14, and for other grades from 15 & 18 per cent, per annum.

The Lovisville Journal says that a meeting of the

free bankers of Indiana was held in Indianapolis on the 25th ult. The gathering was an explusive oneprivate and secret. Its purpose, however, has transpired, and was the taking of steps toward the establishing in Indianapolis of a Union Bank, in which all the free banks in the State are to be stockholders, with a capital of \$500,000. The object of this is the protection of Indiana free-bank currency by driving out Ohio, Virginia, and all other foreign bank-notes, to put down the rate of exchange, and to further the adoption of such a policy as shall, with reference to foreign bankers, be promotive of the interests of those The holders of the Indiana Bank Loan Bonds (5 P
